Our Mission

- To be the region's most preferred ICT infrastructure service provider.

Corporate Goals

- Focus and strengthen our brand name locally and regionally.
- Maintain the status “like.no.other” of providing products and services in the industry of ICT infrastructure in the region.

Our Vision

- Providing the Global ICT infrastructure products with the excellent local services.
- Ensures providing the latest technologies of global ICT infrastructures standards with local reasonable costs.

Core Values

- Nurture the People - We will always develop effective strategies to support and sustain human talent growth. In offering training programs, competitive remuneration packages, flexible and conducive working environments. We challenge our people to bring out their BEST.

Cambodia | Laos | Myanmar | Singapore | Vietnam | Malaysia | Philippines | Indonesia

History and Background

We are headquartered in Singapore as a regional head office as part of Ventech Asia Group. It was incorporated in the year of 2000 and has rapidly grown into a dynamic company that is focused on the provision of practical and cost-effective network infrastructure solutions in data centers, telecommunication, corporate offices, commercial, hospitality, manufacturing factories, healthcare, residential, and retail sectors. Our structured cabling services (fiber optic cables) range from design to installation, implementation, maintenance and support.

Our experience spans a diversity of applications from consulting through implementation, management and maintenance of the system. Our depth of experience with technology and project management allows us to provide the highest levels of service and quality value for investment.

Ventech's mission and policy statements include a commitment to provide of the Global ICT infrastructure products with the local excellent value-added services, develops and strengthens our Project Implementation Process (PIP) across Ventech offices and continually improve the effectiveness of the Quality Management System (QMS). Ventech's QMS is in accordance with the requirements of being professional credentials BICSI RCDD recognition.

As a certified structured cabling specialist by many of the well-known infrastructure brands, we are leaders in the field of fiber optic solutions, structured cabling solutions, copper cables, testing and commissioning in demonstrating knowledge in the design, integration and implementation of information technology systems (ITS) and related infrastructure components. In complement with our value added professional services, we also provide ICT Services and Managed Services.

Cambodia | Laos | Myanmar | Singapore | Vietnam | Malaysia | Philippines | Indonesia

Business Segments

ICT Infrastructure Services

- Network infrastructures for telephone, LAN, camera surveillance, access control, wireless system, IPTV and PA.
- We offer the network infrastructure optimization to take advantage of today's advanced routing and switching technology to meet the increasing demands for bandwidth.
- Structured Cabling Consultancy.
- Data Centers services including design, implementation and maintenance. You also may need our professional services of data center relocations and re-designation as well for the compliance demand.
- We applied group and industry best practices across our organization to ensure our clients benefit from rapid speed of adoption.
- Infrastructure Consulting Services.
- M&E services may include the installation, commissioning and maintenance of a myriad of disciplines, including:
 - ◆ Air-conditioning, refrigeration, cold rooms, and ventilation systems
 - ◆ Electrical wiring and electrical-based systems such as switch gears, transformers and generators
 - ◆ Communication lines, telephones and IT networks
 - ◆ Fire alarm, prevention, protection and security systems

ICT Outsourcing Services

- Full ICT Outsourcing Services

We offer Service Desk Services across the complete spectrum - from

Cambodia | Laos | Myanmar | Singapore | Vietnam | Malaysia | Philippines | Indonesia

- ◆ Basic IT helpdesk to enterprise service desk solutions. This includes complete ticket lifecycle management, proactive alerts monitoring, IT security and identity and access management. Our IT helpdesk services are now specializing in serving different industries, and their industry knowledge makes them familiar with specific issues a certain company faces. Clients often prefer IT helpdesks that know their industry because this means faster problem resolutions.
- ◆ Due to the flexibility and startups trends, we have many kinds of IT helpdesks designed on demand such as IT helpdesk onsite on the basic of monthly, manday or even tickets counted at the month end.

▪ **IT Maintenance Services**

- ◆ Our Service Management framework optimizes the delivery and management of IT Services to achieve a sustainable IT environment with a road map for improving maturity levels.
- ◆ In addition to IT helpdesk, we can offer you with regular IT visits of maintenance to your system to make sure that it is running smoothly.

System Integration (SI) Services

- ◆ As a partner of various well-known hardware and software suppliers, Ventech also takes on final responsibility for design, supply, management and implementation of extensive IT system integration services at the very comparative cost due to our enhanced and simple internal management.

Corporate cultures

At Ventech, we focus on work-life balance and other activities that may help staff enjoy their work and life as well. We embrace our daily sports activities for health and work-life balance, book reading, team-spirit coaches and leadership training. We understand that only our people are being treated well first, then we all can serve our customers better, meaning that we put our people first, then our customers come second served by the enthusiastic engineers.
